Ad Lectores.

Benevoli Lectores

HOminem quempiam posse aliquando doctum, nec non et eruditum evadere è duobus ei emanet fontibus necesse est; ex auditione scilicet et Lectione, quarum una præcedat, subsequatur altera: Quæ individuo licet nexu conjuncta quibusdam esse videantur, at confundenda, et promiscuè habenda, esse, rectè doctiores omnes omninò negant.

Auditionem quippe tironibus præcipuè commendandam, prouectoribus

autem, vtramq; coniungendam prudentiorum omnium vnaninem esse opinionem, (vt et ipsi sentitis) autumo. Hac tamen lege, vt quæcunq, audita, siue lecta fuerint, memoriam, tanquam fideliſſimo, et tutiſſimo ærario tradantur, vt hinc inde ad vſum facilius depromi, et reduci queant.

Sed quoniam memoria cum vtendi facultate debilis, et incompleta esse ſoleat, ita vt ad ſeſe exerendam, et in actum producendam quibuſdam egeat ſubſidijs; optimé eos quidem novitiorum ſtudijs conſuluiſſe putem, qui quæ & memoriæ juvandæ, & vſus facilitati juſtò promovendæ collatura exiſtiment, literarum candidatis ad amuſſim proponant. Ideirco cum vſus eorum quæ *Coniugata* Logicis dicuntur, memoriam in verbis retinendis vt plurimum juvet, et *compoſitionis* is finis ſit, partim vt non, (quod aiunt) ſuſq, déq;, ſed eum neceſſitas id cogit, oratio aſſurgat, partim vt mens noſtra, vbi opus eſt, loco integræ orationis, verbi

verbi beneficio vtatur, vt non *vnum vno*, sed vt *multa vno* complectamur, quo et interim oratio magis accrescit: Nos certè, et *memoriæ*, et *vsui* hac ratione faventes, et aliarum linguarum *lexica* nequaquam absq; re, nonnihil imitantes, *simplicibus composita, parenti sobolem* subiecimus, quo et facilius quæ à probatissimis authoribus vsurpantur, memoriæ commendentur, et certius, et expeditius siue in scribendi, seu loquendi exercitatione, conceptus nostri sese expedire, et dilatare queant.

Sin autem vides verba varijs præpositionibus aliquando composita, nulla a me interpretata fuisse differentiâ: scias quod ne latum vnguem ab authorum probatorum Coryphæis, puris ijs scilicet Romanorum fontibus discedendum mihi fuisse recte censuerim: nec vllatenus ausus fuerim. Sed et atentius se consulat curiosus quisq;, et æqua lance verborum naturam libret, fatebiturq; vna mecum eandem vim singulorum verborum compositionem

non

non sibi vendicare, quorundam quamvis; vt ingenij accumine præditis, et in linguâ Latinâ versatissimis perspectissimum est.

Ne autem et priori sententiæ meæ allibi traditæ, et ipsi veritati fraudi essem, profiteor me cum de verbis *Neutris* agam, illiq; ordini quædam ascribam, non è sententiâ propriâ, sed cum vulgo loqui; verbiq; *Neutrius* ordinem supervacaneum esse, quod et allibi a me habetur, constantius asseverare; meq; illud *Aristotelis* libentius audire, qui cum Ethicorum primo, de *idæis* adversus *Platonem*, et *Socratem* sententiam dicturus tribunal ascendit, præclara illa dictavit. *Veritatis causa melius videtur, immo oportet etiam quæ sua sunt tollere aut refutare.* Vale Lector et fruere.
